YEAR 7 BOYS FINAL PLAYED AT WEMBLEY STADIUM!

What is Carnegie Champion Schools?

The Carnegie Champion Schools Tournament is a great way to introduce more and more secondary schools and colleges to Rugby League, as well as creating opportunities for them to play alongside friends and enjoy a fantastically beneficial sporting experience.

It is pleasing to know that the competition continues to develop and grow, with over 500 schools participating in the tournament this year. This number included 1,568 separate boys teams and 216 girls teams. Both figures represent an annual increase, making it the largest Rugby League competition in the world!

The Road to Wembley

Schools initially compete in local competitions usually organised geographically by district or service area. The local winners then progress to the Regional Stage.

Teams battle their way through the regional competitions hoping to progress to the National Stage of the tournament.

Participating schools can benefit from trophy visits, player visits and free match tickets. For those lucky enough a trip to Wembley awaits...
